

THE POCHE DAILY RECORD.

WEDNESDAY, OCTOBER 18, 1876

Two thousand years ago the Greeks worked the silver mines of Laurium. The present inhabitants of that district are now working the tailings. Among the ancient refuse and dross has sprung up since operations were commenced a profuse growth of a species of yellow poppy, mentioned by ancient historians, and looked for in vain by modern botanists. The little poppy seeds lay in the earth through twenty centuries, and now germinate as fruitfully as though of last year's growth.

Northern Arizona is calling loudly for improved means of travel and transportation. It is claimed that it has greater natural advantages than the southern part of the Territory in every respect. At present the inhabitants rely chiefly upon a steamer that makes irregular trips up the Colorado, the terminus of the route being at Hardyville. The 35th parallel road is eagerly looked for in that section of country.

The following is the ticket nominated by the Nye county Democracy: For State Senator, H. T. Creswell; Assembly, T. H. Bell and J. M. Caldwell; Sheriff, Woodson Garrard; Clerk, Geo. Nicholl; Assessor, R. L. Thomas; Treasurer, U. Gates; Recorder, Jas. A. Service; District Attorney, Frank Owen; Surveyor, George Ernest; Public School, M. R. Delano; Public Administrator, J. L. Thomassen.

The telegraphic report this morning says that a general European war is probable. The blast of the war bugle across the water would blow considerable good to this country at present. In case of a general fight, the United States would clothe, arm and feed the combatants, and make big money out of the job.

The New York Evening Express of last Thursday says: "It is stated that one of the California silver millionaires [J. C. Flood] recently in this city has made a contract to supply the Governments of China and Japan with all the silver they require and draw on London for the same."

It is claimed that in the coming election as goes New York State so goes the Union, as goes New York City, so goes the State, and as go John Kelley, John Morrissey, and Jas. O'Brien, so goes the city, so they have got it down pretty fine.

We are in receipt of a bright and breezy exchange in the shape of the "Weekly Stock Exchange." It is a record of California street and the Coast's main industries for one week, and, as such deserving of commendation for its merit.

At the annual target practice of the Virginia City Montgomery Guards last Thursday, Wm. Gascon won the first prize and Company medal by a score of 21; Richard Hennessey, second prize; and John Lynch, third prize.

Among several ancient coins found lately near Jerusalem were shekels and half shekels of Judea which are considered by many to be the most interesting of all ancient coins. They are of silver and belong to the time of the Great High Priest, Simon Maccabeus.

Well, Hayes carried his State, and Hendricks carried his State; the question now lies between Tilden and Wheeler, who shall carry New York. The Empire State's electoral vote will decide the matter.

'Tis said that Sitting Bull has made a solemn oath never to wash his face until he scalps the white liar who started the scurrilous report that he is a graduate of West Point.

The election of the 10th inst., resulted in a general jubilee throughout the country. Everybody was satisfied and Democrats and Republicans jollified over the news.

It is seriously stated that Mrs. Tilden will sue for a divorce, and Lawyer Sherman is investigating matters with that end in view.

It is a pretty well established fact that Governor Hayes has no connection with the Know-Nothing wing of the Republican party.

An enormous amount of money changed hands throughout the country on the result of the election of the 10th instant.

Reaction at Philadelphia is reported as already begun. It is estimated there are 10,000 unemployed houses and 20,000 unemployed laborers in the city.

The Democratic papers of Nevada are mercilessly scoring Fitch. "God made him, therefore let him pass for a man."

Now that the October elections are over, it is the intention of those having the work in charge to send prominent Republican speakers through the South to address the people of that section.

Col. Robert Lincoln, son of the dead President, was one of the Republican orators during the recent canvass in Indiana.

The English have at last been induced to use corn meal, and large quantities of that article are now being exported from this country.

No full-blooded negroes died of yellow fever during the recent epidemic in Savannah, Ga.

"Now sits expectation in the air," and eagerly awaits the result of the November election.

The Chinese Commission will assemble in San Francisco to-day.

They are advertising in the Virginia papers for Chief of Police Lackey.

SPIRIT OF THE PRESS.

The California mill consumes monthly 30,000 pounds of quicksilver that never finds its way back again.

The Hale and Norcross Mining Company has levied an assessment of \$1 per share, delinquent November 14th.

Hon. H. G. Blasdel has been appointed Superintendent of the Dolores mine, Esmeralda county. The conflicting claims to the mine have been settled.

The Steptoe Consolidated Mining Company, recently incorporated in San Francisco to operate in Ward District, have commenced active operations.

C. C. S. Wright has severed his connection with the Eko Independent, and S. S. Sears has assumed the proprietorship and control of the paper.

The Cheyenne and Black Hills telegraph line has reached Maj. Collier's camp at Red Canyon, 180 miles north of Fort Laramie, and an office has been opened there.

Three faro games are in full blast in Reno. This is the largest number ever at Reno. Each game pays a license of \$400 per quarter, which gives the county a revenue of \$400 per month from faro.

The Bozeman (Montana) Times has a motto "Faithful and Fearless." Some fellow recently changed it to read "Faithless and Fearful." The mistake was not discovered till the edition had been sent off, and then the editor got mad.

The teachers at Bishop Whittaker's Seminary are Miss Kate Sill, Principal; Miss L. B. Graham, Assistant Principal; Miss Eva Quisfle, Instrumental and Vocal Music; Miss Dora Chinn, Mathematics and Classics; Mrs. E. N. Stevenson, Matron; Rev. Wm. Lucas, Chaplain.

A requisition was made on the 11th by Acting Governor Adams upon the Governor of California for the delivery to the authorities of this State of the persons of James Johnson and Samuel Wilson—the same being the names of the men arrested a few days ago in Anador county by Bank Woodruff on a charge of robbing Wells, Fargo & Co.'s treasure box near the Mountain House in Douglas county on the 3d inst.

The Board of Pardoners has granted a pardon to M. Borowsky, late Public Administrator of Eureka county, who was convicted in the District Court several months ago of misdemeanor in appropriating to his own use certain funds which came into his hands from the estate of — Hamilton, deceased. The Sentinel says the pardon was conditioned upon the payment of the funds in the hands of the Clerk of the District Court of this county, belonging to Borowsky, being paid to the heirs of Hamilton, after deducting the cost of the prosecution, which amounted to \$300.

Early last evening, says the Gold Hill News of the 13th, there was a very lively little time on South C street. Harry J. Norton, editor of the Silver City Reporter, had some words with "Prospecting Bill." It is said that the latter applied to Norton a filthy and abusive epithet. The newspaper man at once throttled William, and at the same time drawing his pistol smashed it barrel-end first into his face. After knocking out one of the Prospector's teeth, Norton cooked the weapon and pulled the trigger. At this critical moment another newspaper man threw his hand forward and the hammer came down upon his finger instead of upon the cartridge, thus saving the man's life. The original cause of the rumpus has not come to light. Up to noon to-day no arrests had been made.

The Los Angeles Express says: As an illustration of what "pluck" can accomplish in California we give this sketch of a New England mechanic who came to Los Angeles somewhat more than two years ago. Finding that there was but a slight demand for his peculiar craft, he resolved at once to make a bold stroke for independence. He had learned of a small tract of unoccupied land situated near the foothills, some ten miles west of the city, from which a man of frugal habits might procure a competence. Thither he repaired with his family, consisting of his wife and two babies, and all his worldly goods, consisting of some cooking utensils, a horse and eash,

\$250. To build a shanty and clear the brush off a few acres of land was the work of a few days, and the foundation of a system of planting and gardening which he has since extended to meet not only the demands for domestic comfort, but to likewise enable him to lay up a very considerable amount of money, for which he has no immediate demand. This gentleman is well known in Los Angeles, and is to-day the owner of a homestead that could not be purchased for ten thousand dollars.

NEW TO-DAY.

Sheriff's Sale.
